

Pharmacy Benefits

With all three medical plans, you have access to comprehensive prescription drug coverage with convenient retail and mail order supply options. CVS Caremark administers our pharmacy plan with 60,000+ pharmacy locations nationwide. Visit **Caremark.com** for a full listing of covered prescriptions and pharmacy locations near you.

CVS partners with GoodRX to automatically match the lowest price for your non-specialty generic prescription drugs. PrudentRx offers specialty medications at no cost to those on the **CORE PPO** and **PREMIUM PPO** plans. It is not available to those on the **HDHP PLUS** plan.

New for 2026: Cox is partnering with Scripta, a free prescription savings app included in your health plan that helps find lower-cost, equivalent medications - empowering you to make informed choices with your doctor and save money.
